

GAINING MOMENTUM

YMCA Camp Moody 2020-2023 Impact Report

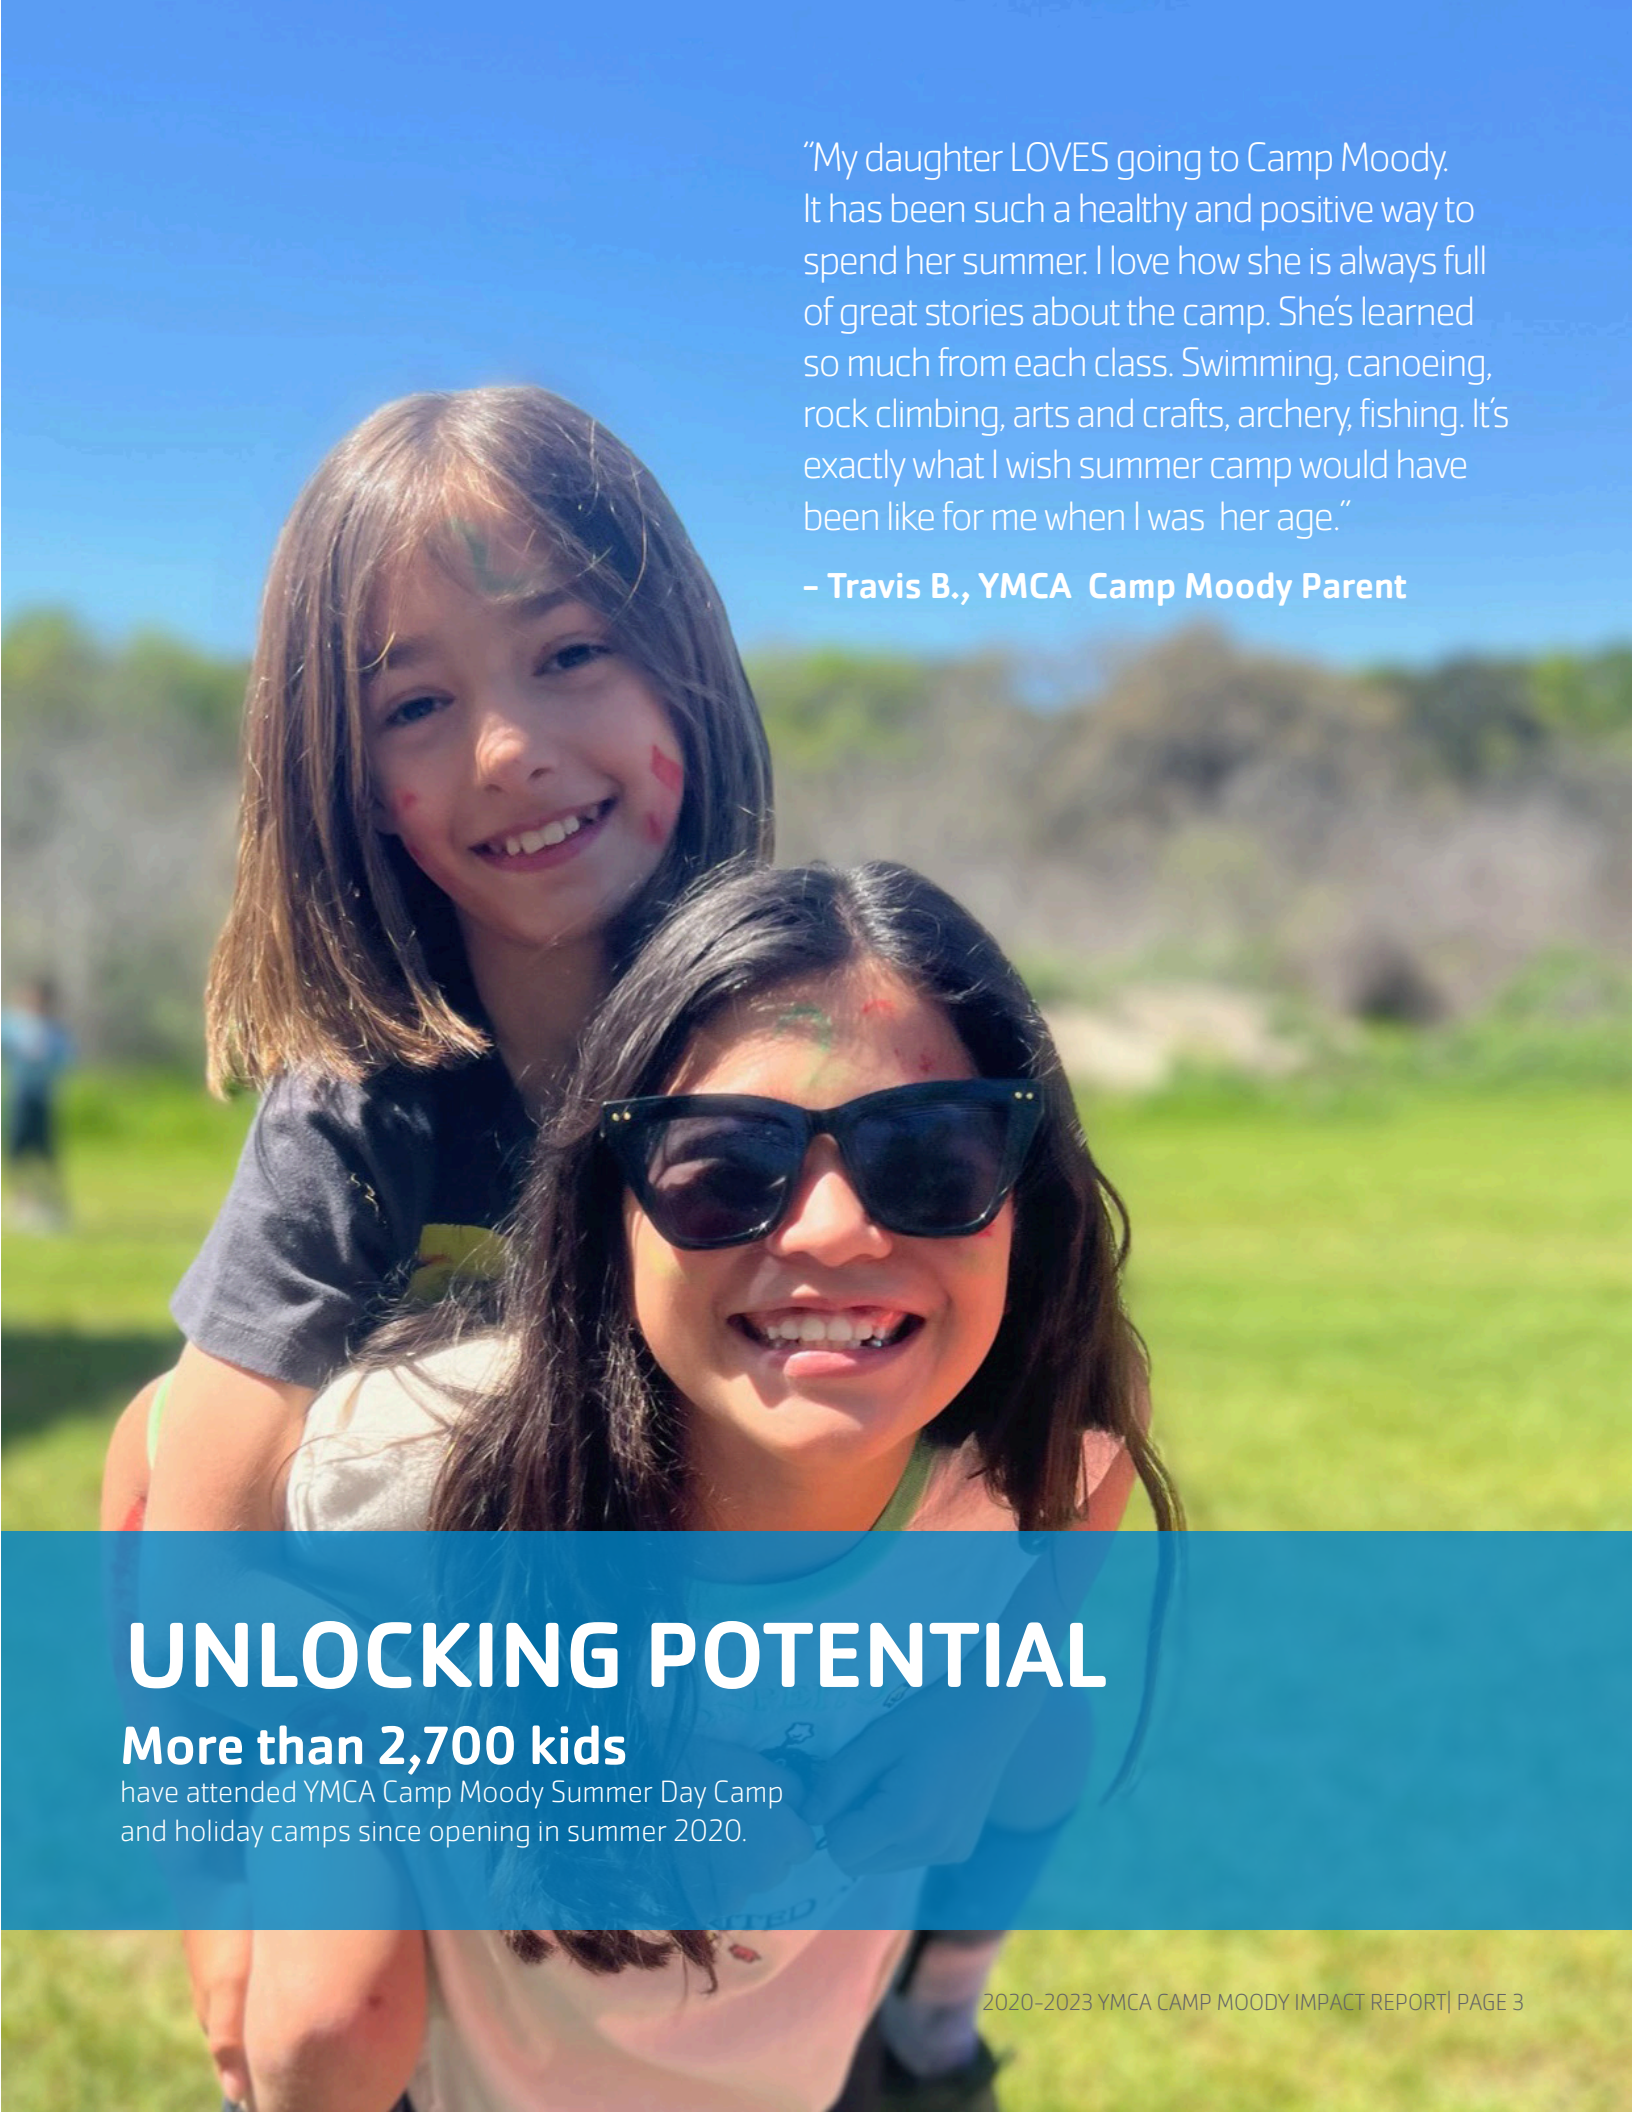

If You Know, You Know...

YMCA Camp Moody may be the best kept secret in Greater Austin, but those days are numbered. New stories of transformation take shape with every day, and word is getting out. After a tenuous start in the summer of 2020 during the COVID-19 pandemic, YMCA Camp Moody is beginning to fulfill its original vision.

A thousand kids create lifetime memories each summer along the banks of Onion Creek. Families strengthen their bonds during overnight campouts. Students explore the wonders of nature on field trips in their own backyard. Corporate colleagues foster trust and camaraderie on day-long teambuilding retreats. Young swimmers learn water safety in our free Project SAFE classes, while our competitive swim teams sharpen the drive and discipline needed to perform under pressure. And health seekers pursue all dimensions of fitness amid the splendor and beauty of nature.

But YMCA Camp Moody is just getting started. We are so grateful for the visionary supporters who have carried this project into the present day. We now invite everyone – past, present and future – to continue dreaming.

We enter our next phase of growth at camp inspired by the once-in-a-generation opportunity to shape the future through the eyes of a child.

“My daughter LOVES going to Camp Moody. It has been such a healthy and positive way to spend her summer. I love how she is always full of great stories about the camp. She’s learned so much from each class. Swimming, canoeing, rock climbing, arts and crafts, archery, fishing. It’s exactly what I wish summer camp would have been like for me when I was her age.”

- Travis B., YMCA Camp Moody Parent
